

## Micropace Quality Policy Statement

Micropace is committed to designing and supplying to our customer distributors, physicians and patients, superior quality cardiac electrophysiology medical devices and related services that are effective, safe, reliable and timely.

We will do this by adhering to an effective risk-based EN ISO13485:2016 Quality Management System, complying with USA, EU and all other applicable regulatory requirements, effective communication with external parties and proactive use of post market feedback to monitor and improve our product and services.
